Dear Supporter

Thank you for making a difference and thank you for not losing hope or giving up.

Every day, you and I learn more about the seemingly endless assault on our environment, both globally and locally. We hear that climate change is at a crisis level, our planet is in peril, and we're about to hit the point of no return. It can be overwhelming. Not surprisingly, many folks throw up their hands in resignation.

You are not one of those people.

You made a choice to take action, and I cannot thank you enough. You chose to support new initiatives being undertaken in our community by passionate, knowledgeable agents of change who, like you, have not and will not give up on our planet.

Because of your caring and generous support, more people are better informed on the critical condition of our environment and empowered with the tools they need to make a difference.

I've enclosed an update on some of the ways you've helped protect our environment through your support. I'd love to chat with you more about this work, if you like, or about your own concerns for our community and our planet. I can be reached at 204.947.6511 or executivedirector@mbeconetwork.org anytime.

Thank you again for not giving up on our precious environment and for your ongoing support!

All the best,
