## **Call to Action to Abolish Nuclear Weapons**

Sustainable Development Goal # 16 calls for Peace, Justice and Strong Institutions.

The Manitoba Eco-Network supports education, policy and action to achieve the United Nations Sustainable Development Goals in perpetuity.

We endorse the International Campaign to Abolish Nuclear Weapons and the Cities Appeal Campaign that calls on the City of Winnipeg to support the international Treaty on the Prohibition of Nuclear Weapons.

Humanity faces many great challenges, such as global warming, increased income inequalities and overconsumption.

There is a dire need to end the threat of ecological devastation and mass destruction from nuclear weapons and redirect the funds from global military budgets to focus on achieving our sustainable development goals.

We thank the local group, Youth Nuclear Peace Summit for organizing this important campaign.
